UR-260D 2-channel UHF System 522-554 MHz

Art. No.: 13055179
GTIN: 4026397696929

Features:

RELACART UR-260D 2-channel UHF Receiver 522-554 MHz

Diversity wireless receiver with DSP for microphone modeling and PC software

- 2-channel multifrequency wireless receiver with 24-bit processor for high-end audio quality
- Integrated MagicEQ enables amazing microphone modeling of hand-held microphones
- Choose from 7 presets based on popular microphone models (e835, beta58, e935, D5, SM57, N/D767a, SM58) and 3 user-definable presets
- Integrated Feedback Killer effectively eliminates feedback, providing maximum gain and increased clarity on every microphone
- DSP programming and management via Ethernet port and intuitively operated PC software
- High-quality antenna diversity reception
- Pilot frequency squelch technology delete wireless RF interference
